

17th Annual Virtual Conference on Neurology & Clinical Neurophysiology Updates in Headache Medicine 15 February, 2021

Sponsors

We would like to thank our sponsors for their generous support which allowed us to provide this virtual conference free of registration fees.

Teva Pharmaceutical Industries has been developing and producing medicines to improve people's lives for more than a century. We are a global leader in generic and specialty medicines with a portfolio consisting of over 3,500 products in nearly every therapeutic area. Around 200 million people around the world take a Teva medicine every day and are served by one of the largest and most complex supply chains in the pharmaceutical industry. Along with our established presence in generics, we have significant innovative research and operations supporting our growing portfolio of specialty and biopharmaceutical products. Medison is one of the world's largest commercial partners of leading global biotech companies. Medison is uniquely qualified to provide the complete spectrum of integrated services for biotech companies looking to enter or expand their presence in Israel, Canada, and Central Eastern Europe. Medison runs a corporate venture arm with a dedicated research and evaluation team boasting deep scientific and commercial backgrounds. Medison also operates a scouting program to cater its partners and is an active investor in life science projects around drug development and digital health.

Lilly was founded in 1876 by Colonel Eli Lilly, His charge to the generations of employees who have followed was this: "Take what you find here and make it better and better." More than 140 years later, we remain committed to his vision through every aspect of our business. Three long-established core values guide all that we do at Lilly: Integrity, Excellence and Respect for People.
Therapeutic Areas: Diabetes, Oncology, Migraine, Immunology

Novartis is reimagining medicine to improve and extend people's lives. As a leading global medicines company, we use innovative science and digital technologies to create transformative treatments in areas of great medical need. In our quest to find new medicines, we consistently rank among the world's top companies investing in research and development. Novartis products reach nearly 800 million people globally and we are finding innovative ways to expand access to our latest treatments. About 110,000 people of more than 140 nationalities work at Novartis around the world. Find out more at <https://www.novartis.com>.
